

Power Automate Workshop

Build no-code business automations across Microsoft 365 and ship a working flow for a real internal process by Day 5

START DATE	DURATION	TOTAL HOURS	PER SEAT	TIMING
13 Sep 2026	1 week (5 days)	30 hrs	KWD 400 / seat	8:00 AM – 2:00 PM

[OVERVIEW]

Five days building no-code business automations across Microsoft 365. Each attendee ships a working Cloud flow against a real internal process by Day 5, plus a lightweight Power App they can extend on their own.

[WHAT YOU'LL WALK OUT WITH]

- Design and ship a working M365 Cloud flow against a real internal process
- Use Desktop flows to automate legacy systems without engineering
- Build approval workflows that route correctly across SharePoint and Teams
- Stand up a lightweight Power App for an internal tool
- Recognise where automation is the right answer and where it isn't

[COHORT DATES]

September 13–17, 2026

Power Automate Workshop

DAY 1

6 hrs

Automation Foundations

Manual vs automated workflows, Power Automate platform tour (Cloud vs Desktop), triggers, actions, conditions, expressions, first Outlook to SharePoint file-routing flow.

DAY 2

6 hrs

Working with M365 Services

SharePoint integration patterns, Teams notifications and adaptive cards, Excel + OneDrive automation, multi-step approval flows.

DAY 3

6 hrs

Power Automate Desktop & Legacy Systems

When to use Desktop vs Cloud, UI element capture, recorder, browser automation, working with legacy desktop apps, combining Cloud + Desktop flows.

DAY 4

6 hrs

Advanced Patterns

Error handling, retries, scopes, variables and loops, external APIs via HTTP requests, AI Builder integration, enterprise-grade workflow build.

DAY 5

6 hrs

Capstone & Deployment

Real-use-case scoping, capstone build, testing, monitoring, governance, presentations and rollout planning for IT sign-off.

[WHO THIS IS FOR]

Operations leads, IT business analysts, and citizen developers across Microsoft 365 teams. No coding required, familiarity with Outlook, Teams, and SharePoint is enough. Maximum cohort size: 24.
