

AGENTIC AI

Agentic AI Workshop

Five days from prompting LLMs to shipping a multi-step AI agent. Each engineer walks out with a working n8n + APIs prototype built on a real workflow from your business, not demo-ware. Covers agent design patterns, tool use, RAG, and safety guardrails.

DURATION	FORMAT	TIMING	PER SEAT
1 week (5 days) 30 hrs total	Workshop In person	8:00 AM – 2:00 PM	KWD 450 per seat

FIELDS

 Agentic AI LLMs RAG

TOOLS

 OpenAI Anthropic n8n Hugging Face

What you'll walk out with

- ✓ Each attendee ships a working multi-step AI agent prototype on n8n + APIs
- ✓ Apply core agent design patterns (planner / executor / supervisor)
- ✓ Set up retrieval-augmented generation against your own knowledge base
- ✓ Connect agents safely to internal APIs and external services
- ✓ Know when an agent is the right shape, and when prompts and a script are enough

CURRICULUM

5 modules across 1 week (5 days)

01

6 HRS 1 SESSIONS

Day 1, From LLMs to Agents

LLM fundamentals refresh, what makes AI agentic, agent design patterns (planner / executor / supervisor), n8n setup, first single-agent flow.

02

6 HRS 1 SESSIONS

Day 2, Tool Use & Integrations

API basics for non-engineers, connecting agents to APIs in n8n, structured outputs (JSON schemas), memory and context, multi-tool agent build.

03

6 HRS 1 SESSIONS

Day 3, Multi-Step Planning & RAG

Multi-step reasoning patterns, RAG fundamentals, vector databases and embeddings, build a Q&A agent on internal docs.

04

6 HRS 1 SESSIONS

Day 4, Production Patterns

Error handling and guardrails, cost and rate-limit management, observability and logging, API key security, production-grade agent build.

05

6 HRS 1 SESSIONS

Day 5, Capstone

Use-case scoping, capstone build, presentations, and a deployment plan for a real internal workflow.

COHORTS 2026

3 open cohorts

NEXT	June 14–18, 2026	OPEN
COHORT 2	August 9–13, 2026	FILLING
COHORT 3	October 11–15, 2026	FILLING

AT A GLANCE

Logistics & enrollment

DURATION	1 week (5 days) (30 hours)
FORMAT	Workshop · In person
SCHEDULE	Morning shift, 8am–2pm, five consecutive days
LOCATION	CODED Campus, Free Trade Zone, Kuwait
PER SEAT	KWD 450
PREREQUISITES	Programming basics required
CLASSROOM	Morning Big O / Legacy (35 seats)

Who this is for

Engineers, technical PMs, R&D leads, and AI champions building first agentic prototypes. Prerequisites: at least one programming language (Python preferred), REST API basics, and prior LLM prompting exposure. Maximum cohort size: 35.

YOUR INSTRUCTOR

Senior Instructor, Engineering & Practice

Ali Taqi

Senior Instructor at CODED with 12 years across full-stack engineering, .NET / Spring Boot APIs, and SCRUM Agile delivery; co-founder of Ajar and YallaBit, AUK Information Systems graduate. Leads CODED's B2B workshops on agentic AI, SQL, and Scrum Master certification.

Frequently asked

Do attendees need OpenAI / Claude API access?

Yes. Bring your own API keys, or we provision shared keys for the workshop.

Mac or Windows?

Either works. 16 GB RAM recommended for running n8n locally.

Ready to enrol your team?

We'll come back with seat confirmation, the next available cohort, and the invoice.
