

## DATA SCIENCE &amp; ANALYSIS

# Data Analytics & SQL

Two days of analytical SQL for non-engineers. SELECT / JOIN / GROUP BY mechanics, window functions, and connecting SQL to spreadsheets and BI tools. Each attendee walks out with a reusable query bank for your enterprise data.

| DURATION                      | FORMAT                       | TIMING                   | PER SEAT                   |
|-------------------------------|------------------------------|--------------------------|----------------------------|
| <b>2 days</b><br>12 hrs total | <b>Workshop</b><br>In person | <b>8:00 AM – 2:00 PM</b> | <b>KWD 200</b><br>per seat |

## FOUNDATIONS

 SQL

## FIELDS

 Machine Learning Data Modeling

## TOOLS

 Postman Pandas NumPy

## What you'll walk out with

- ✓ Write production-quality SELECT, JOIN, and aggregation queries
- ✓ Use window functions to answer real analytical questions
- ✓ Connect SQL output to Excel and BI tools for downstream reporting
- ✓ Stop waiting on engineering for ad-hoc business questions
- ✓ Walk out with a reusable analytical SQL query bank for your data

## CURRICULUM

## 2 modules across 2 days

01

6 HRS 1 SESSIONS

## Day 1, SQL Foundations

SQL landscape for analysts, SELECT, WHERE, ORDER BY, LIMIT, JOINS (INNER / LEFT / RIGHT / FULL), GROUP BY, HAVING and aggregates; ten hands-on analytical queries on a real business dataset.

02

6 HRS 1 SESSIONS

## Day 2, Analytical SQL

Subqueries and CTEs, window functions, date/time handling, connecting SQL to Excel and Power BI, capstone query bank for the participant's own company.

## COHORTS 2026

## 2 open cohorts

|          |                   |         |
|----------|-------------------|---------|
| NEXT     | August 4–5, 2026  | OPEN    |
| COHORT 2 | October 4–5, 2026 | FILLING |

## AT A GLANCE

## Logistics & enrollment

|               |                                              |
|---------------|----------------------------------------------|
| DURATION      | 2 days (12 hours)                            |
| FORMAT        | Workshop · In person                         |
| SCHEDULE      | Morning shift, 8am–2pm, two consecutive days |
| LOCATION      | CODED Campus, Free Trade Zone, Kuwait        |
| PER SEAT      | KWD 200                                      |
| PREREQUISITES | No coding required                           |
| CLASSROOM     | Morning Legacy (33 seats)                    |

## Who this is for

Business analysts, finance staff, and ops leads currently dependent on engineering for ad-hoc queries. Spreadsheet familiarity is enough. No prior coding. Maximum cohort size: 33.

## YOUR INSTRUCTOR

Senior Instructor, Engineering & Practice

**Ali Taqi**

Senior Instructor at CODED with 12 years across full-stack engineering, .NET / Spring Boot APIs, and SCRUM Agile delivery; co-founder of Ajar and YallaBit, AUK Information Systems graduate. Leads CODED's B2B workshops on agentic AI, SQL, and Scrum Master certification.

## Frequently asked

**Does anyone need to install anything?**

No. We use a web-based SQL environment for the whole workshop.

**Will this prep our team for AI for Finance?**

Yes. We sequence the SQL workshop before AI for Finance for exactly this.

### Ready to enrol your team?

We'll come back with seat confirmation, the next available cohort, and the invoice.
