What you'll walk out with

- ✓ Design and ship a working M365 Cloud flow against a real internal process
- ✓ Use Desktop flows to automate legacy systems without engineering
- ✓ Build approval workflows that route correctly across SharePoint and Teams
- ✓ Stand up a lightweight Power App for an internal tool
- ✓ Recognise where automation is the right answer and where it isn't

Frequently asked

Does each attendee need a Power Automate license?

Yes. Their M365 license needs to include Power Automate. We confirm this in the pre-work.

Mac compatible?

Cloud flows yes. Desktop flows are Windows only, Mac users pair with a Windows attendee.

Ready to enrol your team?

We'll come back with seat confirmation, the next available cohort, and the invoice.
