

[AGENTIC AI]

AI App Developer Bootcamp

Five weeks of evenings turning non-technical professionals into AI app builders. Each attendee ships a deployed product on a custom domain, built with AI tools (Lovable, Replit, Supabase). Five modules: UI, API, Data, Security, Launch.

What you'll walk out with

- ✓ Each attendee ships a deployed AI-powered app on a live custom domain
- ✓ Systems thinking: structure data flows and direct AI tools with technical clarity
- ✓ UI/UX design and prototyping with Stitch, v0, Lovable, and Replit
- ✓ API integration via REST + JSON, plus connecting to AI APIs through OpenRouter
- ✓ Backend data persistence and authentication via Supabase (auth, RLS, storage)

5 modules across 5 weeks

01

12 HRS 3 SESSIONS

Module 1: The UI Architect

AI development tools (Lovable, Replit), UI/UX with Stitch and v0, component thinking, prompt engineering, deploy first live app.

02

12 HRS 3 SESSIONS

Module 2: The API Connector

HTTP fundamentals, JSON, REST APIs, Postman testing, integrating an AI API via OpenRouter.

03

12 HRS 3 SESSIONS

Module 3: The Data Architect

Relational database design, Supabase setup, server-side security, data-driven features.

04

12 HRS 3 SESSIONS

Module 4: The Security Architect

Supabase Auth, user roles and RLS, AI safety and prompt-injection defenses.

05

12 HRS 3 SESSIONS

Module 5: The Launch Architect

Payment processing, analytics, error tracking, DNS, custom domain, ship a production MVP.

Logistics & enrollment

DURATION	5 weeks (60 hours)
FORMAT	Bootcamp · In person
SCHEDULE	Sundays, Tuesdays, Thursdays · 5:00–8:45 PM · 3 sessions/week
LOCATION	CODED Campus, Free Trade Zone, Kuwait
PER SEAT	KWD 950 · group rates available
PREREQUISITES	No coding required
CLASSROOM	Evening cohort, CODED Campus

Who this is for

Built for non-technical professionals across operations, marketing, HR, and product who want to ship real digital products. No prior coding required, but you should arrive with a real idea and the willingness to put in the evenings.

Frequently asked

Do attendees need any prior coding experience?

No. The program is designed for non-technical professionals. AI tools handle the code, your people learn to direct them.

What does each attendee build?

A real, deployed AI-powered application on a custom domain, chosen by them, scoped during Module 1.

Can our team bring an internal product idea to the bootcamp?

Yes, most attendees do. We can also coordinate enterprise-sponsored capstone problem statements for full-team enrollments.

Ready to enrol your team?

We'll come back with seat confirmation, the next available cohort, and the invoice.
