

[DATA SCIENCE & ANALYSIS]

Intro AI for Finance

Three days for finance teams on AI-powered modeling, forecasting, and reporting automation. Prompt engineering for financial analysis, LLM-assisted forecast models, automated month-end reporting. Each attendee leaves with a working model and a reporting prototype tailored to your company.

DURATION	FORMAT	TIMING	PER SEAT
3 days 18 hrs total	Workshop In person	8:00 AM – 2:00 PM	KWD 225 per seat

FIELDS

Machine Learning

Data Modeling

TOOLS

OpenAI

Anthropic

Pandas

What you'll walk out with

- ✓ Build an AI-assisted forecast model on real financials
- ✓ Automate month-end reporting workflows that previously took days
- ✓ Apply LLMs to commentary, variance analysis, and audit trails, safely
- ✓ Frame where AI helps in finance and where it actively hurts

[CURRICULUM]

3 modules across 3 days

01

6 HRS 1 SESSIONS

Day 1, AI for Finance Foundations

AI landscape for finance teams, prompt engineering for financial analysis, AI-assisted Excel modeling, document analysis on contracts/statements/filings, AI-augmented variance analysis.

02

6 HRS 1 SESSIONS

Day 2, Forecasting & Reporting

AI-assisted forecasting techniques, building forecast models with Python + LLMs, automating board-ready reports and management commentary.

03

6 HRS 1 SESSIONS

Day 3, Audit, Risk & Capstone

AI for audit and compliance workflows, the risk and ethics frame, capstone forecast + reporting automation tied to the participant's own company data.

Logistics & enrollment

DURATION	3 days (18 hours)
FORMAT	Workshop · In person
SCHEDULE	Morning shift, 8am–2pm, three consecutive days
LOCATION	CODED Campus, Free Trade Zone, Kuwait
PER SEAT	KWD 225
PREREQUISITES	Excel comfort, no coding needed
CLASSROOM	Morning Alsharekh (24 seats)

Who this is for

Finance managers, FP&A analysts, controllers, treasury, and corporate development. Excel financial modeling comfort required. Basic Python helpful but not required, we cover what you need. Maximum cohort size: 24.

[YOUR INSTRUCTOR]

LEAD INSTRUCTOR, BACKEND & DATA SCIENCE**Alhamzah Makkiyah**

Backend Engineer and Data Science trainer with a Master's in Information Systems from Kuwait University. Currently a Backend Engineer at OBytes; previously Education Lead at CODED running data-science and full-stack bootcamps. Expertise in Python, Django, Pandas, and Scikit-Learn. Lead instructor on Intro AI for Finance.

Frequently asked

Will this expose proprietary data to public LLMs?

No. We cover the safety guardrails and use enterprise-friendly setups.

Ready to enrol your team?

We'll come back with seat confirmation, the next available cohort, and the invoice.
