

DATA & ANALYTICS

Data Analytics & SQL

Two-day fundamentals of SQL. Query, transform, and visualise enterprise data seamlessly.

START DATE

4 Aug 2026

DURATION

2 days

TOTAL HOURS

12 hrs

PER SEAT

KWD 200 / seat

TIMING

8:00 AM – 2:00 PM

[OVERVIEW]

Two days of analytical SQL for non-engineers. SELECT / JOIN / GROUP BY mechanics, window functions, and connecting SQL to spreadsheets and BI tools. Each attendee walks out with a reusable query bank for your enterprise data.

[WHAT YOU'LL WALK OUT WITH]

- Write production-quality SELECT, JOIN, and aggregation queries
- Use window functions to answer real analytical questions
- Connect SQL output to Excel and BI tools for downstream reporting
- Stop waiting on engineering for ad-hoc business questions
- Walk out with a reusable analytical SQL query bank for your data

[COHORT DATES]

Data Analytics & SQL...

DAY 1

6 hrs

SQL Foundations

SQL landscape for analysts, SELECT, WHERE, ORDER BY, LIMIT, JOINS (INNER / LEFT / RIGHT / FULL), GROUP BY, HAVING and aggregates; ten hands-on analytical queries on a real business dataset.

DAY 2

6 hrs

Analytical SQL

Subqueries and CTEs, window functions, date/time handling, connecting SQL to Excel and Power BI, capstone query bank for the participant's own company.

[WHO THIS IS FOR]

Business analysts, finance staff, and ops leads currently dependent on engineering for ad-hoc queries. Spreadsheet familiarity is enough. No prior coding. Maximum cohort size: 33.
